

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Lance Karren
DOCKET NO.: 03-22378.001-R-1
PARCEL NO.: 03-32-221-019-0000

The parties of record before the Property Tax Appeal Board are Lance Karren, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property consists of a 57-year old, two-story frame and masonry dwelling containing 2,290 square feet of living area with a full, finished basement, central air conditioning, two fireplaces, and a one-car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. On the appellant's map, two comparables are located in close proximity of the subject, and two are located approximately one-half mile from the subject. The comparables are two-story frame and masonry dwellings that are 35 to 59 years old. Two of the comparables have partial basements; one has a full basement; and one does not have a basement. Three comparables have central air conditioning, and two have fireplaces. Information on garages was not disclosed, although photographs supplied by the appellant indicate that at least two comparables have garages, either one-car or two-car. The comparables contain 2,028 to 2,662 square feet of living area and have improvement assessments ranging from \$8.37 to \$9.33 per square foot. The subject property has an improvement assessment of \$14.59 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment was disclosed. In

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	6,101
IMPR.:	\$	20,679
TOTAL:	\$	26,780

support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing four suggested comparable properties. According to the board of review, the properties are located six blocks from the subject. Actually, their permanent parcel index numbers indicate that they are not located near the subject property at all. The comparable properties consist of two-story frame and masonry dwellings that are 33 to 37 years old. Each comparable has a full, unfinished basement, central air conditioning, a fireplace, and a two-car garage. The dwellings contain 1,958 to 2,746 square feet of living area and have improvement assessments of \$14.41 to \$16.21 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

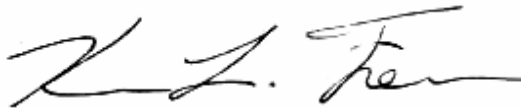

Both parties presented assessment data on a total of eight equity comparables. The board of review's comparables differed significantly in location and age from the subject and received reduced weight in the Board's analysis. The appellant's comparables one and four also differed in location from the subject and also received reduced weight in the Board's analysis. The appellant's comparables two and three were the most similar to the subject in location, age, and most physical characteristics. They had improvement assessments of \$8.76 and \$9.29 per square foot, and the subject's improvement assessment of \$14.59 per square foot falls well above the level established by these comparables. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is not supported by the most comparable properties contained in the record and a reduction in the subject's assessment is warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
